Review:

Why is China accused of not allowing its citizens to have human rights?

In 2008, China held the olympics. Many people argued this because of Chinas lack of human rights.

Yet others said it helped China to become more "exposed" and modern to the rest of the world.

With a partner, decide if you would support the olympics in China or not.

Create a slogan that supports or is against the Olympics in China.

I will award a prize to creative thinkers who can make their slogan rhyme!
