

### The Medieval Manor

1. Using a piece of poster board, you are going to create a “birds eye view” or your very own medieval manor. Your manor should include everything people would need to survive during the middle ages. Things to include in a manor:

Castle for King/ Queen                  Lords housing                  Knight/ Vassal housing                  Peasant Housing

Common Area (including shops that people would use)                  Trails/ Pathways

Distribution of land (what will land be used for and where?)                  **Compass**                  **Key**                  **Title**

2. After creating your medieval manor, write one paragraph explaining why your manor is set up the way it is. How is it safe? How does it allow for all members of society to work together?
