Holocaust

Prejudice

Genocide

During WWII, (and even before it), Adolf Hitler wanted to get rid of anyone who was not "perfect".

He wanted to create a "Master German Race."

He blamed the Jews for all of Germany's problems

Hitler's Nazi party killed 6 million Jews - (Genocide).

This example of genocide was called The Holocaust.

This did not happen over night, Hitler took several steps over years to murder this many people.

## Step 1:

Hitler uses propaganda to convince German citizens that Jews are to blame for all of Germany's problems.

Jews are outcasted - having to wear stars on their clothing to make them stand out.

Many German citizens no longer shop at Jewish stores, they also go out of their way to make life miserable for Jews.

## Step 2:

Jews are forced to move out of homes, leave all possessions, and move into ghettos - separate from other German citizens

The Jews were then rounded up...

Put into cattle cars...

Step 3: The Final Solution - Mass Murder of Jews in concentration camps.
