

## Bell Ringer: What is your dream job?

I ♥ my job

The United States in a **Free Enterprise System**.

What does that mean?

In America, there are several different types of jobs...

Service Industry

Manufacturing

Agriculture

Mining

## Service Industry

1. Banking
2. communications
3. Wholesale and retail trade
4. All professional services such as engineering and medicine
5. All consumer services
6. All government services

# Manufacturing

Jobs in which things are made

# Agriculture

# Mining

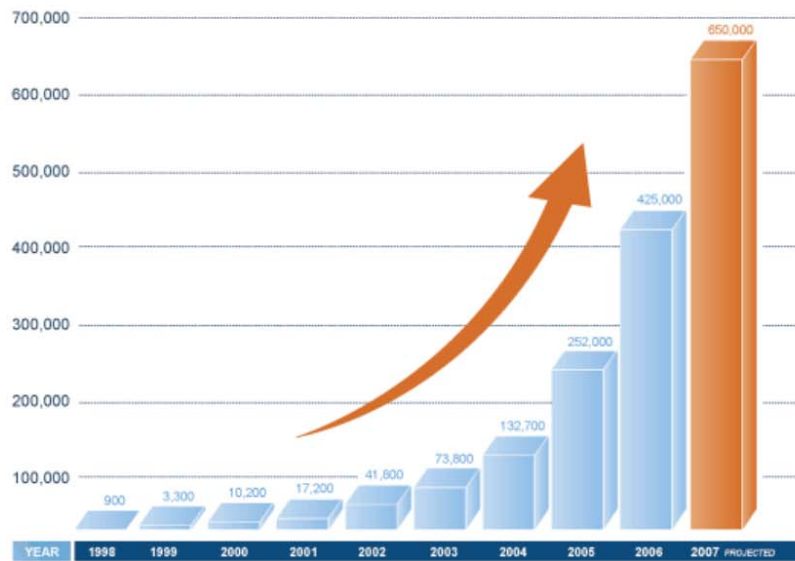

Which of these industries do you think is the most popular in America?

Service Industry

Manufacturing

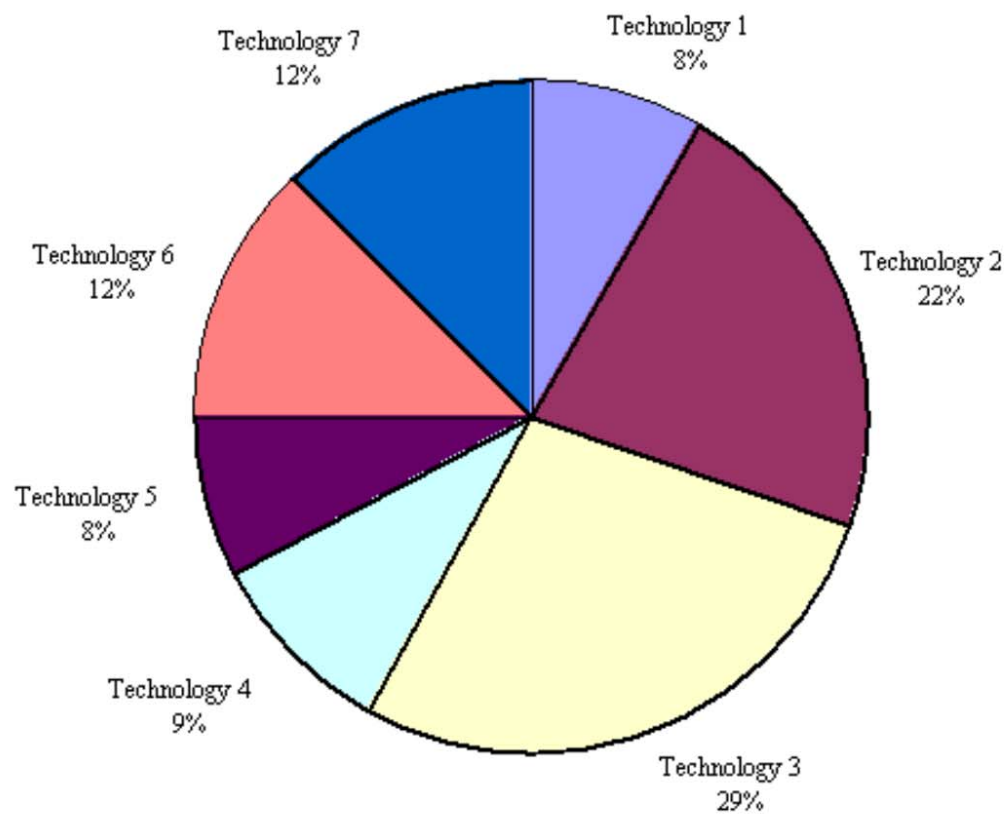

Agriculture

Mining

Make a Pie Chart showing how you think the economy is split in America. Include percents with each section of the chart.

## The Economy of the United States

Make the correct pie chart of the U.S. economy

Service Industry - 75%

Manufacturing - 22%

Agriculture - 2%

Mining - 1%

Now that we know a little bit about these jobs - lets see what YOU would do.

How many of you would want a job in...?

Service Industry

Manufacturing

Agriculture

Mining

Make a Bar Graph of your findings...

We have the ability to keep these jobs because our country functions under a Free Enterprise System.

Now its YOUR turn...

Go through the "Wanted" Ads and choose a job

On a piece of paper - explain what the job involves

Explain if you think you would need some type of higher education or experience

Guess on what you think the pay would be \$\$\$.

Looking at all of the jobs available, write what you think are some benefits and disadvantages to the Free Enterprise System
