Congratulations! You have just been offered a job as a travel agent. Your first assignment for your new job will be to find three (3) different tourism locations for two (2) different countries. That's a total of six (6) places. You need to create a passport (see below) for two different people who will be traveling to the two countries of your choice. You may choose from the following countries: India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka

Remember to create a map of the country and label the three (3) tourism locations. Finally, write a summary for each tourist location you choose explaining why you would send someone there.
