

### African Wall Poster – 10 points

You are going to create an African Wall Poster about one African country. Your wall poster should include the following areas of study – land and climate, economy, history and government, and culture. I will provide you with the poster board.

Include a number of images on your wall poster as well. Make sure each image has a caption that goes with it.

Use pages 410 – 414 (Our World Today Textbook) and CIA World Factbook to help you with your research. (Will also find some on pages 426 – 428 in Exploring Our World textbook.)

Put the name of the country across the top of your poster, (nice and big). Other than the name of your country being at the top, you may organize your poster any way you would like.

My country is: (Circle your country) –

Sudan, Ethiopia, Eritrea, Djibouti, Somalia, Uganda, Rwanda, Burundi
